

## CSI and Advices for the second year

*Length of the PhD and Personal Monitoring Committee*  
*CSI Comité de Suivi Individuel*

Claire Migliaccio, Director of the IT Doctoral School  
Sylvie Icart, Deputy Director  
Xavier Pennec, Deputy Director

September 16, 2022

# Overview

- Excessive length of PhDs at EDSTIC
- Impact on your career
- Scientific aspects
- *CSI = Personal Monitoring Committee*
- After the defense
- Your contacts at EDTSIC

# Excessive length of PhDs at EDSTIC

- A registration in 4th year always goes with a commitment on the defense date (March-April maximum)
- A registration in 4th year for PhDs with a first registration late in the academic year will be examined taking into account the starting month
- A registration in 5th year year will be refused except very exceptional case

# Impact on your career

## *A lengthy PhD*

- Remains on your vitae and is interpreted as a lack of dynamism by private HRD
- Delays by one year your applications for positions (MCF, INRIA, CNRS...)
- Ranks you among the oldest applicants

## *A short PhD*

- Reinforces the bright aspect of you career
- Participates to a faster development of your carrier

# Scientific aspects 1/3

## *Publications*

- Think of a publication strategy as soon as the 2nd year
- More intense in 3rd year
- Handle the remaining ones in post-doc or ATER
- Strategy independent of the defense date

## Scientific aspects 2/3

### Writing

- From the start of the PhD, write memos, syntheses, summaries
  - 😊 It favors the communication with your advisors
  - 😊 It gives visibility on your work + memory effect
  - 😊 It avoids the "whitepage" syndrome when you start writing
- Avoid the bug of the "masterpiece", the bug of "evermore". PhD is a step in your career, not the achievement
- Nevertheless keep the concern of a rigorous writing

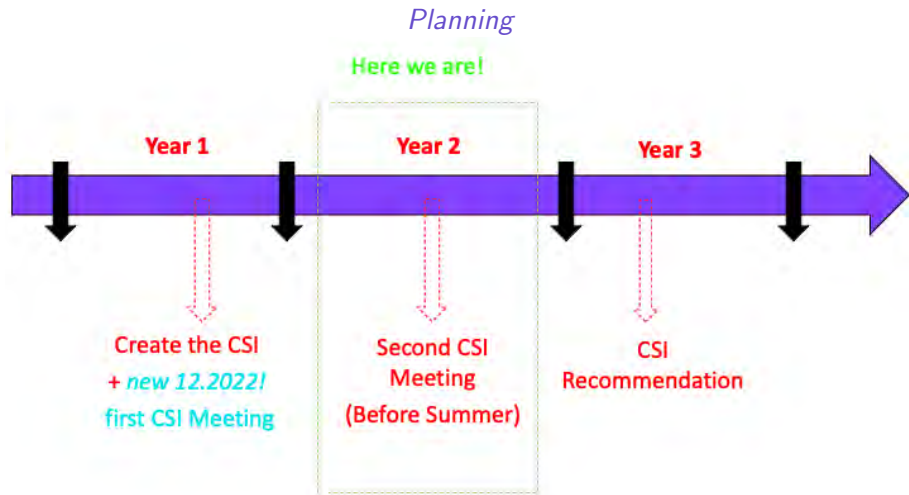

# Scientific aspects 3/3

## *Subject impact*

- Fundamental  $\Leftrightarrow$  Applied
- Conceptual  $\Leftrightarrow$  Technologic
- "I did not cover the whole subject" is a false argument since a good subject always opens new perspectives: research is a never ending story. . .

## *Concurrence*

- A lengthy PhD leaves concurrence advancing  $\Rightarrow$  requires more results
- This is a race you can hardly win. . .

## CSI : *novelties*

*Before Dec. 2022*

- Two members
- Both must have a PhD
- At least one academic with and HDR
- One member of EDSTIC and one member outside UCA

## CSI : *novelties*

### After Dec. 2022

- Up to three members
- All must have a PhD
- At least one academic with and HDR
- One member of EDSTIC and one member outside UCA
- At least one member is a specialist of your field and one who is not
- You have to choose at least one member (not your supervisor). You may choose a former teacher.
- Possibility to have a third member. The third member does not have to be a specialist of your research field. She·He is there in case of conflict.

# CSI

## *Before the CSI*

- First year: enter the names of the *CSI* members in ADUM
- At least a week before: send a short report to the *CSI* (max. 5 pages)

## *The CSI*

- Scientific talk + questions: 1h. Open to all
- Private meeting with PhD candidate and committee
- Private meeting with supervisors and committee
- Writing of recommendations and restitution to the candidate and supervisor(s)

## *After the CSI*

- Upload the report of your *CSI* on ADUM
- You can ask advice at anytime to your *CSI* members

For a more detailed description: <http://edstic.unice.fr/fr/node/99>

# CSI

## The CSI as seen by ADUM

- First year: enter the names of the CSI members in ADUM

The screenshot shows the 'Comité de Suivi Individuel' (Individual Follow-up Committee) section of the ADUM application. The page title is 'Comité de Suivi Individuel'. Below the title, there is a paragraph explaining the committee's role in the doctorate process. The 'Article 13' section describes the committee's composition and its responsibilities. The 'Article 11 (extrait)' section provides instructions on how to enter the names of the committee members. A red box highlights the requirement: 'Nombre minimum obligatoire de membres à déclarer dans le comité : 2'. Below this, there are three rows for entering member names, each with a dropdown menu and a 'rien' option. The first row has 'BLANC-FERAUD Laura' selected. The second and third rows have '(Veuillez sélectionner...)' selected. At the bottom right, there is a 'Continuer (1/3)' button.

- Second year: upload the report of your CSI

# The trainings

## *What you have to do*

- 30h scientific
- 30h professional => *exemption for CIFRE*
- 30 free

## *Mandatory trainings*

- Ethics and scientific integrity => one session in January 2023
- Open science => please have a look on ADUM
- "Dépôt de thèse" (2h) => to do in the third year

## *For validation*

*All trainings + proof of attendance must be entered in ADUM*

# The defense : new! Le serment // The oath

Starting on January. 1st 2023

- After the jury in case of admissibility
- The new doctor takes the oath of scientific integrity is as follows

” En présence de mes pairs. Parvenu(e) à l'issue de mon doctorat en [xxx], et ayant ainsi pratiqué, dans ma quête du savoir, l'exercice d'une recherche scientifique exigeante, en cultivant la rigueur intellectuelle, la réflexivité éthique et dans le respect des principes de l'intégrité scientifique, je m'engage, pour ce qui dépendra de moi, dans la suite de ma carrière professionnelle quel qu'en soit le secteur ou le domaine d'activité, à maintenir une conduite intègre dans mon rapport au savoir, mes méthodes et mes résultats. ”

## In English

” In the presence of my peers. With the completion of my doctorate in [research field], in my quest for knowledge, I have carried out demanding research, demonstrated intellectual rigour, ethical reflection, and respect for the principles of research integrity. As I pursue my professional career, whatever my chosen field, I pledge, to the greatest of my ability, to continue to maintain integrity in my relationship to knowledge, in my methods and in my results.”

# After the defense

## *Advantages of a short PhD*

- Does not interrupt the funding (with some exceptions) nor the duties (e.g. *DCME*)
- Decreases the stress of preparing application files
- Eases the industrial opportunities: respecting time limits is a proof of efficiency

Do not fear moving => ++ Vitae

# Your contacts at EDSTIC

- **Secretary:** Régine Saelens, [regine.saelens@univ-cotedazur.fr](mailto:regine.saelens@univ-cotedazur.fr)

## *Correspondents of labs*

- **I3S**

**Do not fear to contact one or several correspondents**

## Tuteurs ADUM :

- Help you to fill in the different steps in ADUM
- 2 to 3 tuteurs per Lab.
- 10h of trainings per year of "tutorat" upon uploading a proof of service on ADUM
- Apply now by sending me an email! 1 position for 13S, 1 for INRIA and one for the LEAT

Lab	Name	email	Year
INRIA	Charles Dupuy Rony	<a href="mailto:dupuy-rony.charles@inria.fr">dupuy-rony.charles@inria.fr</a>	Second
INRIA	Victoriya Kashtanova	<a href="mailto:victoriya.kashtanova@inria.fr">victoriya.kashtanova@inria.fr</a>	Second
INRIA	Romain Tissot	<a href="mailto:romain.tissot@inria.fr">romain.tissot@inria.fr</a>	First
INRIA	Fang Zhijie	<a href="mailto:zhijie.fang@inria.fr">zhijie.fang@inria.fr</a>	First
I3S	Ali Ballout	<a href="mailto:ballout619@gmail.com">ballout619@gmail.com</a>	Second
I3S	Zoubeirou	<a href="mailto:mansour.zoubeirou-a-mayaki@inria.fr">mansour.zoubeirou-a-mayaki@inria.fr</a>	Second
LEAT	Fatma Dhaouadi	<a href="mailto:dhaouadi.fatma1989@gmail.com">dhaouadi.fatma1989@gmail.com</a>	Second
LEAT	Tran Van Lic	<a href="mailto:vanlic.dn@gmail.com">vanlic.dn@gmail.com</a>	First

# Teaching

## Shifts (*vacations*)

- Contact the teaching unit responsible
- 64h / year max (to be confirmed)
- 1h TP  $\neq$  1h TD
- Don't forget to fill-in the *Autorisation de cumul* and to have it signed by EDSTIC

## Last but not least

- The Head of EDSTIC will change in January 15th 2023
- Please welcome Prof. Jean-Paul Comet !
- [Jean-Paul.Comet@univ-cotedazur.fr](mailto:Jean-Paul.Comet@univ-cotedazur.fr)
